An aerial photograph of a golf course on the left side of the frame, featuring several green fairways and sand traps. To the right, a white sandy beach meets the edge of a crystal-clear turquoise ocean. The water transitions from light blue near the shore to a deeper blue further out. The overall scene is lush and scenic, typical of a tropical resort.

We recently partnered with Channing to showcase our client resort, Aurora Anguilla, home to the acclaimed Greg Norman-designed International Course, recently honored as the #2 Best Caribbean golf course. Working with Channing on the logistics of the trip was seamless as he was wonderfully easygoing and gracious. Beyond that, and most impressively, his photography work is **truly outstanding**.

We knew even before reaching out to him that he was enormously talented but wow, did he blow us away. Everyone at the property was truly captivated by his vision and ability to execute against that vision to secure the perfect shot time after time. We're so very grateful to him for making his way to Anguilla to produce content and imagery that far exceeded our expectations.
